Title: Business Conducted Differently: Neoteric Disruption

Abstract: The ability to challenge thinking, disrupt traditional processes and positively transform the issues of Engagement, Equity, and Economics is a concern of leaders in every business.

This workshop provides neoteric solutions for a new landscape to transform ‘expense’ to a relationship driven investment; sustainable economic growth all through an engaged workforce, quality measurable outcomes, and a respectful market driven by customers. The ability for business and customers to do it supported with a global focus and embedded with excellence and quality by ‘spending’ significantly less.
